1. Executive Summary

Kidzee Polichalur is a web-based activity showcase platform built for the Kidzee Polichalur preschool franchise in Tamil Nadu, India. The platform enables:

- **Parents & visitors** to browse preschool activities, celebrations, and events
- **Admin/teachers** to manage activities through a password-protected dashboard
- **Social media scheduling** for Instagram and Facebook auto-posting

The platform is live at **https://kidzee-polichalur.vercel.app** and is part of the ZOO CRM monorepo, sharing a design system with other franchise apps.

Key Metrics:

- 5 public pages + 2 admin pages
- 4 API endpoints (auth, activities CRUD, seed, social)
- 10 activity categories
- 6 social sharing channels (Facebook, WhatsApp, Twitter/X, YouTube, Instagram, Copy Link)
- WCAG 2.1 AA compliant (0 contrast violations)
- Mobile-first responsive design
- Brand-aligned with Kidzee parent site (kidzee.com)

---

2. Platform Overview

2.1 App Structure

Page	URL	Access	Purpose

Homepage	`/`	Public	Hero, stats, recent activities, year browse
All Activities	`/activities`	Public	Full activity list with year filter
Year Activities	`/activities/{year}`	Public	Activities filtered by year
Admin Login	`/admin/login`	Public	Password gate for admin access
Admin Dashboard	`/admin`	Protected	CRUD for activities, social scheduling

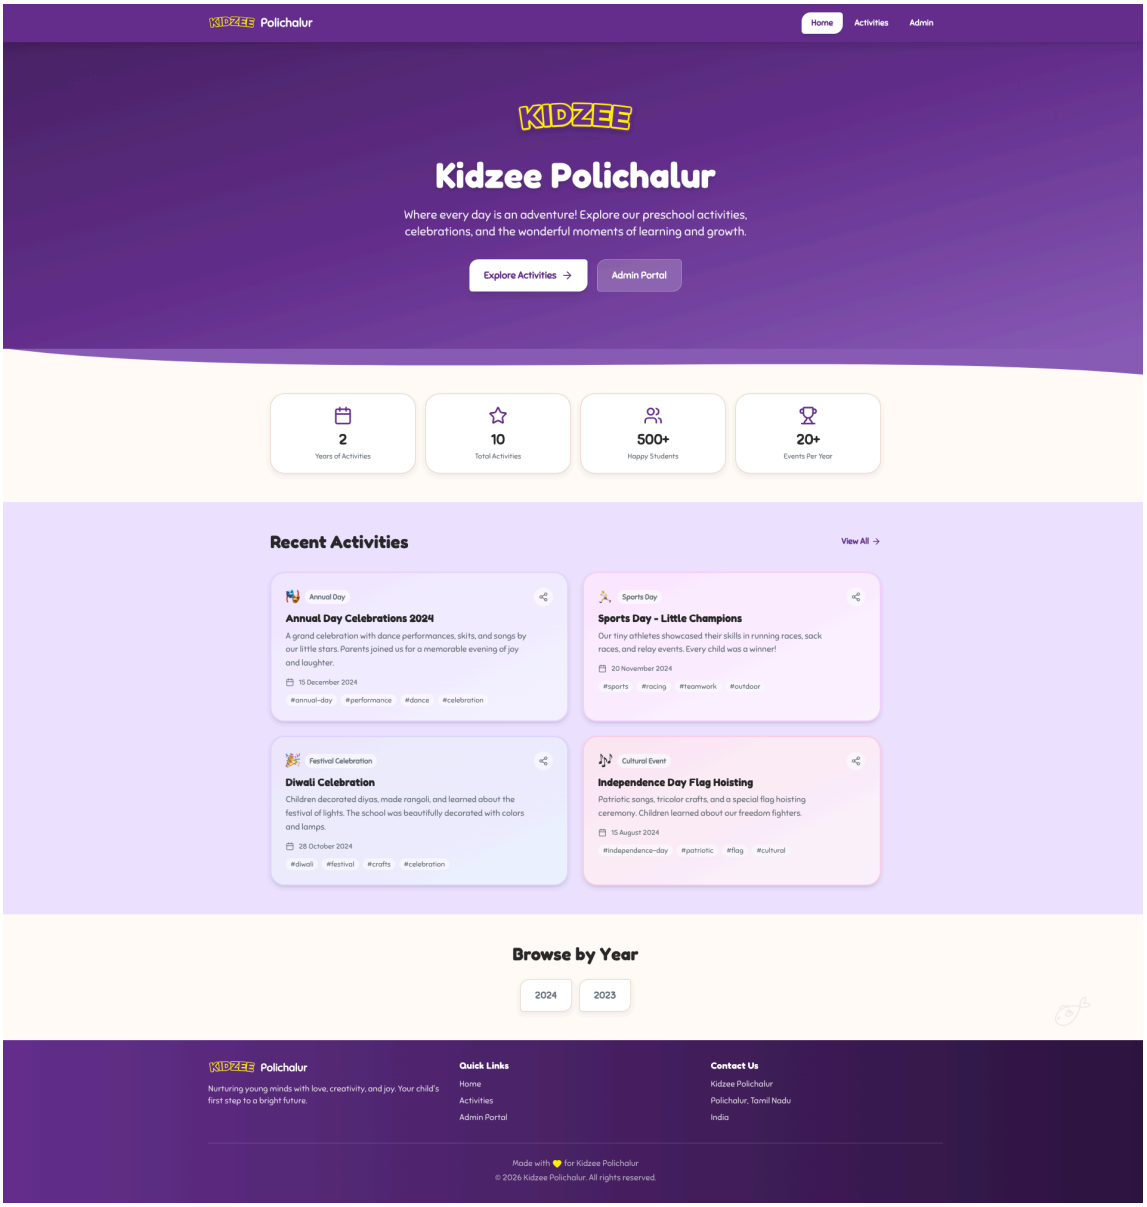
2.2 User Roles

Role	Access	Capabilities
Parent/Visitor	Public pages only	Browse activities, share to social media, view by year
Admin/Teacher	All pages	Add/delete activities, schedule social posts, manage content

---

3. Public Portal

3.1 Homepage



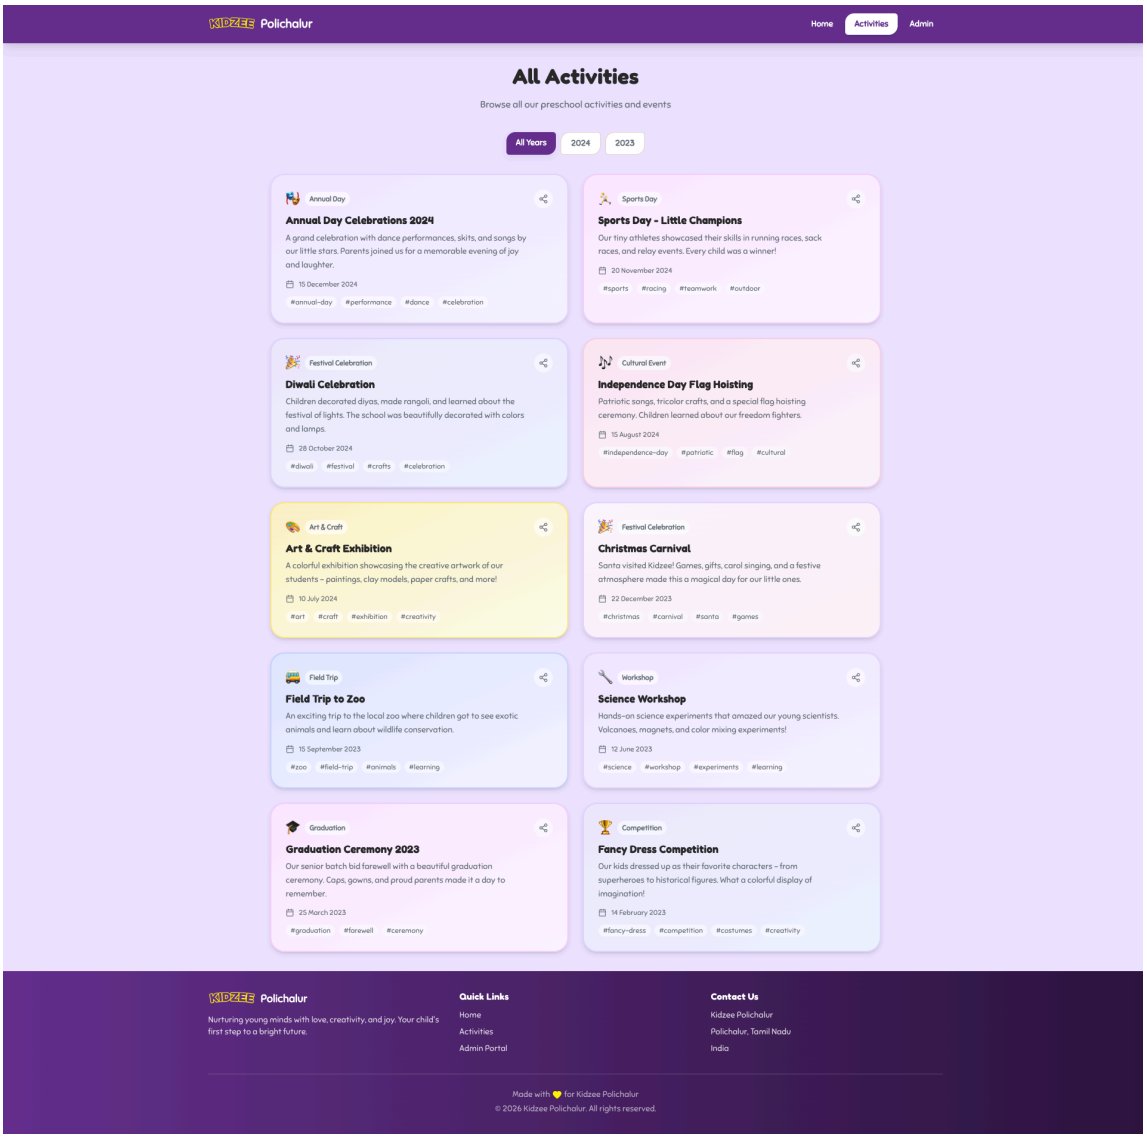
Sections (top to bottom):

1. **Sticky Header** — Official Kidzee logo + "Polichalur" text, navigation links (Home, Activities, Admin), hamburger menu on mobile
2. **Hero Section** — Purple gradient background (#4A2366 → #65318E → #8B5CB8), official Kidzee logo, tagline "Where every day is an adventure!", two CTA buttons:
   - "Explore Activities" → navigates to `/activities`
   - "Admin Portal" → navigates to `/admin`
   - Decorative illustrations (butterfly, balloon, bird) positioned as background elements
3. **Wave Divider** — SVG organic wave separating hero from content
4. **Stats Section** — 4 metric cards:
   - Years of Activities (dynamic count)
   - Total Activities (dynamic count)
   - Happy Students (500+)

- Events Per Year (20+)

5. **Recent Activities** — Latest 4 activities displayed as gradient cards on lavender (#EBE1FF) background, each showing category emoji, title, description, date, tags, share button
6. **Browse by Year** — Year pill buttons with asymmetric border-radius, linking to year-specific pages
7. **Footer** — Purple gradient, Kidzee logo, mission statement, quick links, contact info, copyright

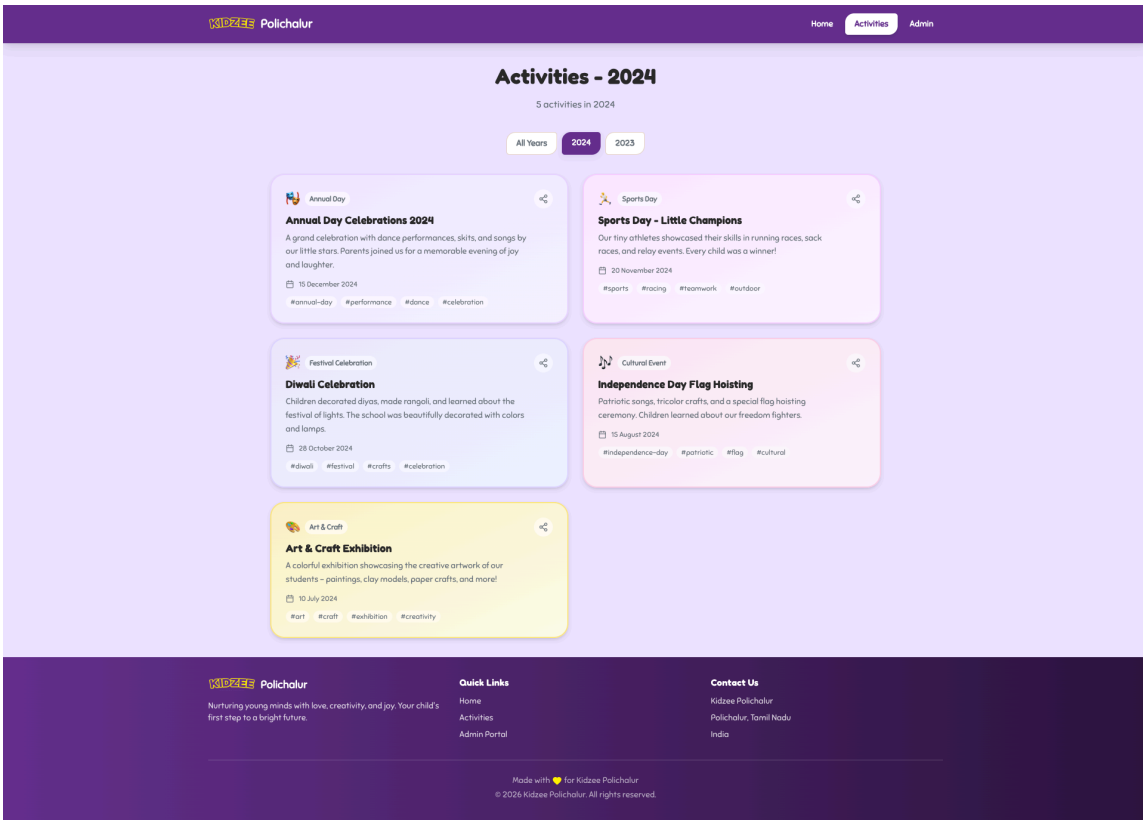
3.2 All Activities Page



Features:

- Page title "All Activities" with subtitle
- **Year Selector** — horizontal pill button group: "All Years" (active by default) + year buttons (2024, 2023, etc.)
- **Activity Grid** — 2-column responsive grid (1 column on mobile)
- Lavender (#EBE1FF) background throughout
- Each activity displayed as an ActivityCard component

3.3 Year-Filtered Activities



Features:

- Page title "Activities - {year}" with count (e.g., "5 activities in 2024")
- Year selector with current year highlighted in purple
- Filtered activity grid for selected year
- Empty state with emoji if no activities for that year

3.4 Activity Card Component

Each activity is displayed as a rich card with:

Element	Details
Category Badge	Emoji + label (e.g., "🎉 Annual Day") on white/60 pill
Title	Bold heading
Description	2-3 line summary
Date	Formatted as "15 December 2024" (India locale)
Tags	Hashtag pills (e.g., #performance, #dance, #celebration)
Share Button	Expands share panel on click
Video Link	Red "Watch Video" link if video URL provided

Background	Rotating purple-family gradient (7 color schemes)
Hover Effect	Lifts card up (-translate-y-1) + enhanced shadow

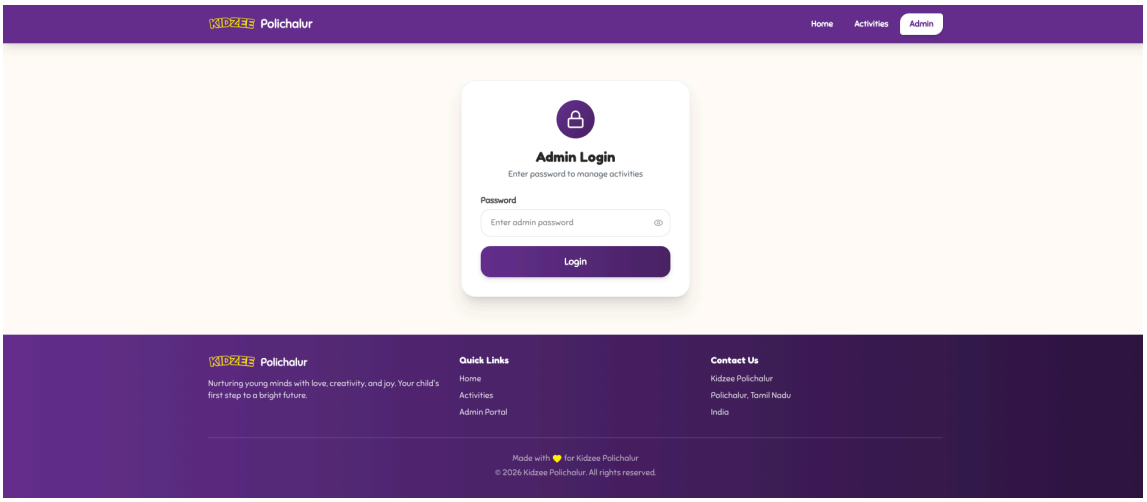
10 Activity Categories:

Category	Emoji	Label
annual-day	🎏	Annual Day
sports-day	⛹️	Sports Day
art-craft	🎨	Art & Craft
field-trip	🚌	Field Trip
festival	🎉	Festival Celebration
graduation	🎓	Graduation
workshop	🔧	Workshop
competition	🏆	Competition
cultural	🎶	Cultural Event
other	📌	Other

---

4. Admin Portal

4.1 Admin Login



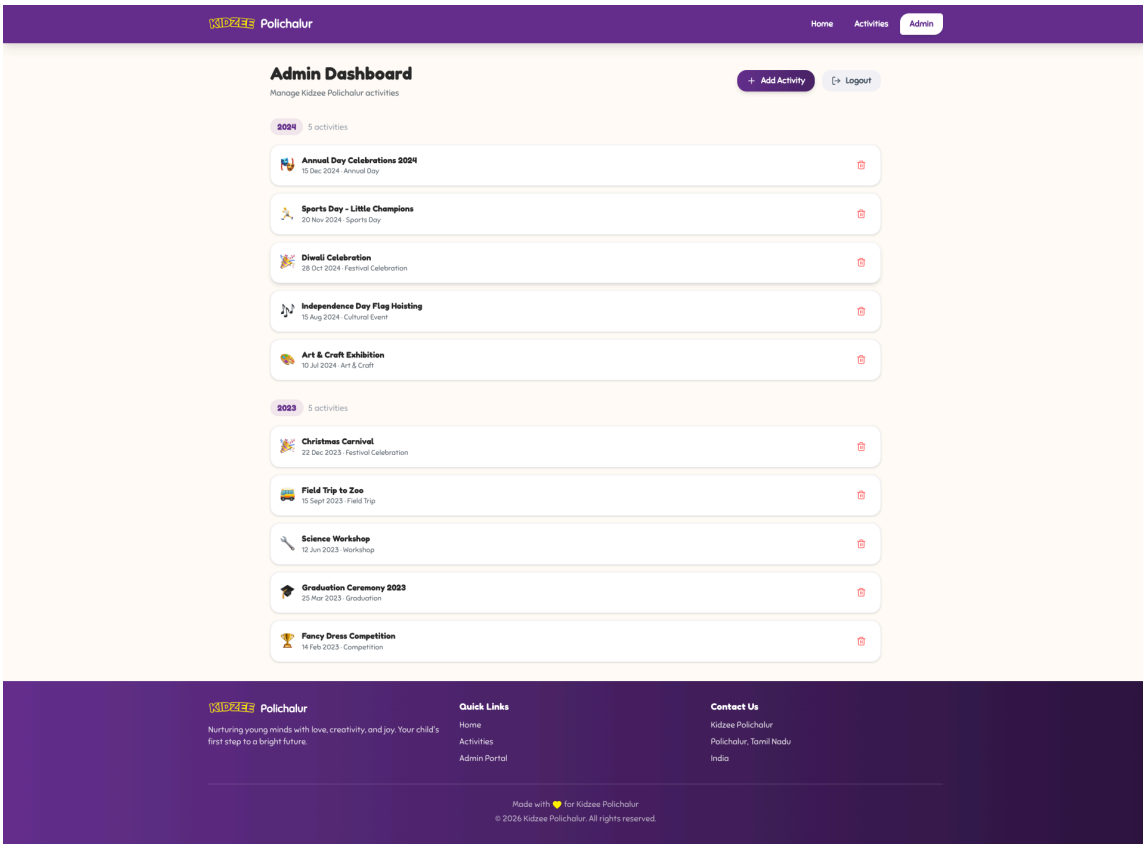
Flow:

1. User navigates to `/admin` → redirected to `/admin/login` if not authenticated
2. Enters admin password in the password field (with show/hide toggle)
3. Clicks "Login" → POST to `/api/auth`

4. On success → token stored in sessionStorage → redirected to `/admin`
5. On failure → red error message displayed below form

Credentials: Password set via `ADMIN_PASSWORD` environment variable

4.2 Admin Dashboard



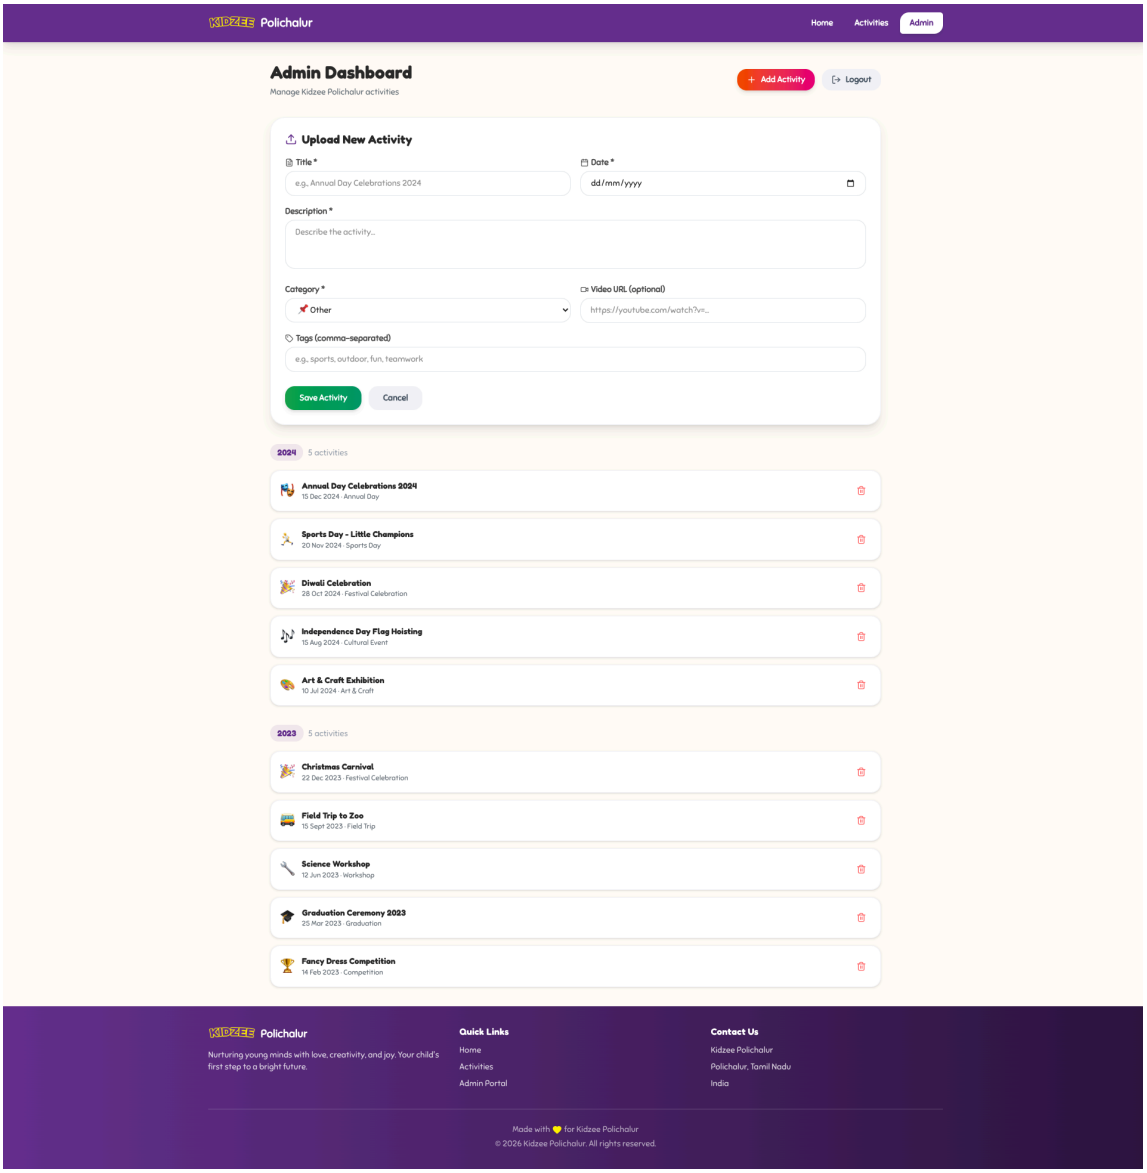
Layout:

- Header with title "Admin Dashboard" + subtitle
- Two action buttons: "Add Activity" (toggle form) + "Logout"
- Activities listed below, grouped by year (newest first)

Activity List:

- Year group headers showing year badge + activity count (e.g., "2024 — 5 activities")
- Each activity row shows: category emoji + title + date + category label
- Delete button (trash icon) on each row — click shows confirmation, then deletes via API

4.3 Add Activity Form



Fields:

Field	Type	Required	Notes
Title	Text input	Yes	Activity name
Date	Date picker	Yes	Year auto-extracted
Description	Textarea (3 rows)	Yes	Detailed description
Category	Dropdown (10 options)	Yes	See category table above
Video URL	URL input	No	YouTube or video link
Tags	Text input	No	Comma-separated, auto-lowercased

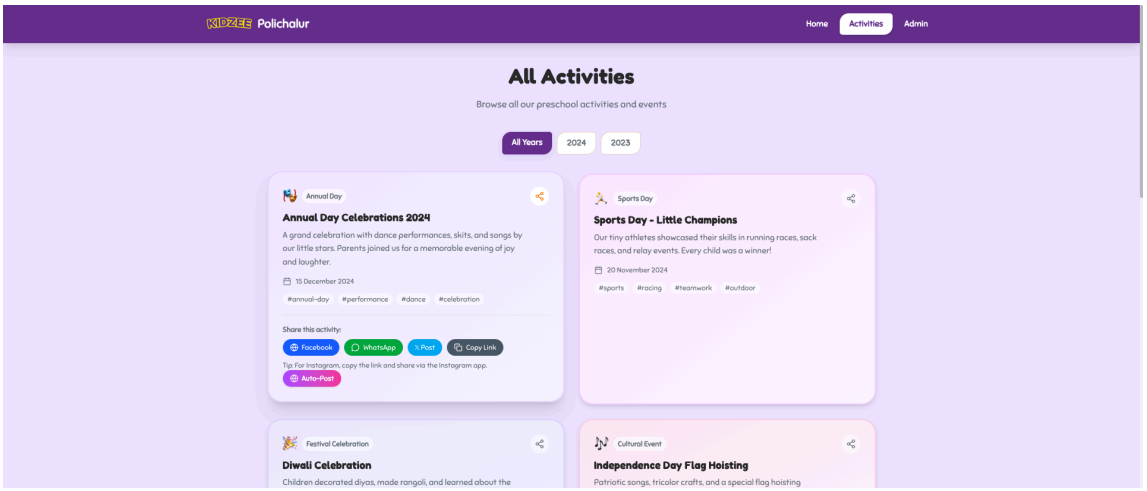
Submission:

- Validates required fields
- POST to `/api/activities` with Bearer token
- Server generates ID, timestamps, year
- Form resets on success
- Activity appears in the list immediately

---

5. Social Media Integration

5.1 Share Panel



Triggered by: clicking the share icon on any activity card

Available Channels:

Platform	Button Color	Action
Facebook	Blue (#2563EB)	Opens Facebook share dialog with activity URL
WhatsApp	Green (#16A34A)	Opens WhatsApp with pre-formatted message + link
Twitter/X	Sky (#0EA5E9)	Opens tweet composer with title + URL
YouTube	Red (#DC2626)	Links to video URL (if provided)
Copy Link	Gray (#4B5563)	Copies direct link to clipboard (with "Copied!" feedback)
Instagram	Tip text	Instructions to copy link and share via Instagram app

Share URL Format: `{BASE_URL}/activities/{year}#activity-{id}`

5.2 Auto-Post Scheduling

Triggered by: "Auto-Post" button within share panel

Flow:

1. Click "Auto-Post" gradient button (purple → pink)
2. Modal expands with:

- **Platform selector** — Instagram / Facebook / Both (toggle buttons)
- **Caption preview** — auto-generated formatted text
- **Image count** indicator
- "Schedule Post" button

3. Select platform → review caption → click "Schedule Post"
4. POST to `/api/social` → post queued with status "queued"
5. Success animation → modal auto-closes after 2 seconds

Auto-Generated Caption Format:

```
✨ {Activity Title}

{Activity Description}

🏫 Kidzee Polichalur — Where little minds bloom!

#Kidzee #KidzeePolichalur #PreschoolFun #EarlyLearning
#LittleLearners #PreschoolLife #{activity-specific-tags}
```

Post Statuses: queued → published / failed

---

6. Happy Path Workflows

6.1 Parent Browsing Activities

```
1. Parent opens https://kidzee-polichalur.vercel.app
2. Sees hero section with Kidzee branding + recent activities
3. Clicks "Explore Activities" button
4. Lands on /activities — sees all 10 activities with year filter
5. Clicks "2024" year pill to filter
6. Browses 5 activities from 2024
7. Clicks share icon on "Annual Day Celebrations 2024"
8. Share panel expands — clicks WhatsApp button
9. WhatsApp opens with pre-formatted message + link
10. Sends to family group
```

6.2 Admin Adding an Activity

```
1. Teacher navigates to /admin
2. Redirected to /admin/login (no session)
3. Enters password: ******* → clicks Login
4. Authenticated → redirected to /admin dashboard
5. Sees 10 existing activities grouped by year
6. Clicks "Add Activity" button — form expands
7. Fills in:
   - Title: "Republic Day Celebration"
   - Date: 2025-01-26
   - Description: "Patriotic performances and flag hoisting..."
   - Category: Cultural Event
   - Tags: republic-day, patriotic, flag
```

```
8. Clicks "Add Activity" submit button
9. Activity created → appears at top of 2025 group
10. Teacher clicks share icon → schedules auto-post to Instagram
```

6.3 Admin Deleting an Activity

```
1. Admin is logged in on /admin dashboard
2. Scrolls to find "Fancy Dress Competition" under 2023
3. Clicks trash icon on that row
4. Confirmation dialog appears
5. Confirms deletion
6. Activity removed from list immediately
7. Public pages no longer show the activity
```

6.4 Scheduling a Social Media Post

```
1. Admin views activity card (on dashboard or public page)
2. Clicks share icon → share panel opens
3. Clicks "Auto-Post" gradient button
4. Scheduling modal expands:
   a. Selects "Both" (Instagram + Facebook)
   b. Reviews auto-generated caption with hashtags
   c. Sees "0 images" indicator (no images uploaded yet)
5. Clicks "Schedule Post"
6. Loading spinner → "Queued!" success message
7. Modal auto-closes after 2 seconds
8. Post saved with status "queued" in data/social-posts.json
```

---

7. Design System & Brand Alignment

7.1 Brand DNA (from kidzee.com analysis)

The platform's design was distilled from the official Kidzee parent site to feel like part of the Kidzee family without being a direct copy.

Brand Elements Applied:

Element	Parent (kidzee.com)	Polichalur App	Status
Primary color	#65318E (purple)	#65318E	Aligned
Body font	Sniglet	Sniglet	Aligned
Display font	Fredoka	Fredoka	Aligned
Section backgrounds	Lavender #EBE1FF	Lavender #EBE1FF	Aligned
Button shape	Asymmetric 15px 5px	Asymmetric blob	Aligned
Shadows	Standard	Purple-tinted rgba(101,49,142)	Enhanced

Motion	Standard	Bouncy cubic-bezier(0.34,1.56,0.64,1)	Enhanced
Decorative elements	Monkey, butterfly, fish	Butterfly, balloon, bird, fish	Adapted
Logo	Official SVG	Official SVG (from kidzee.com)	Aligned

Local Identity (intentional differences):

- Warm cream page background (#FFFBF5) — warmer than parent's white
- Mobile-first design — parent is desktop-focused
- Activity-focused content model — parent is corporate franchise site
- Social media integration — parent has none

7.2 Color Palette

Token	Value	Usage
Primary	#65318E	Headers, buttons, accents
Primary Dark	#4A2366	Hero gradient start, CTA gradient
Primary Light	#8B5CB8	Hero gradient end, hover states
Accent	#FFF200	Badges, highlights
Accent Warm	#FFC107	Warm accents
Background	#FFFBF5	Page background (warm cream)
Background Brand	#EBE1FF	Activity sections (lavender)
Surface	#FFFFFF	Cards, modals
Text	#282828	Body text
Text Secondary	#6C757D	Subtitles, metadata

7.3 Typography

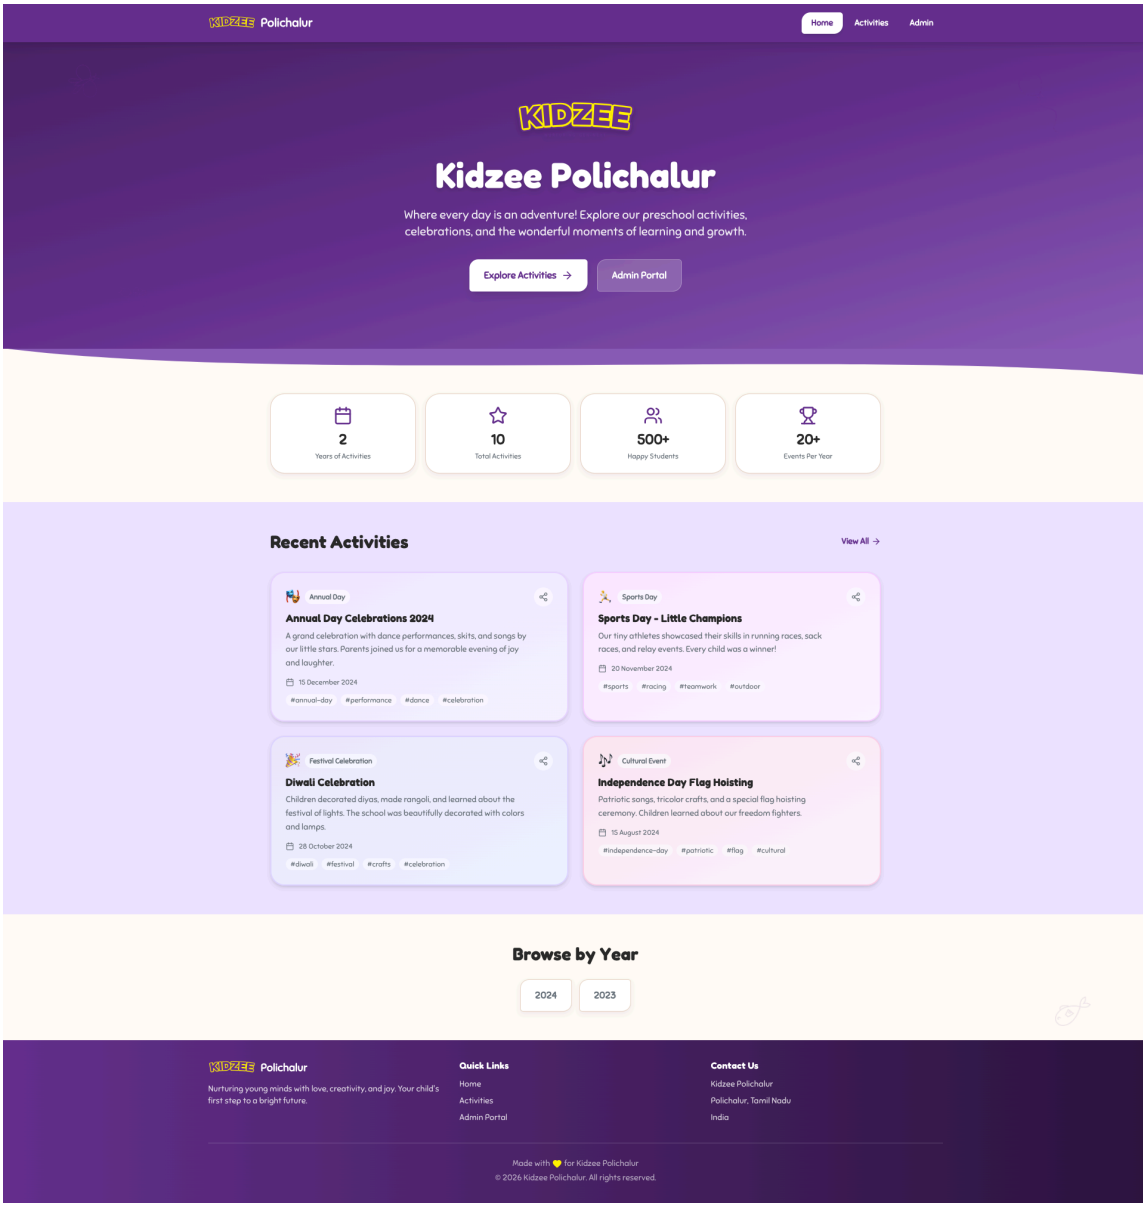
Role	Font	Weights	Usage
Display	Fredoka	300–700	Headings, hero text, stat values
Body	Sniglet	400	Body text, descriptions, labels
Accent	Lato	300–900	Fallback, accent text

7.4 Responsive Breakpoints

Breakpoint	Width	Layout Changes
Mobile	< 640px	Single column, hamburger nav, compact cards
Tablet	640–767px	2-column stats, larger text

Desktop	768px+	2-column activity grid, 4-column stats, full nav

7.5 Mobile View



---

8. Technical Architecture

8.1 Tech Stack

Layer	Technology	Details
Framework	Next.js 16.2.1	App Router, Turbopack, Server Components
Language	TypeScript	Strict mode

Styling	Tailwind CSS v4	Utility-first, JIT compilation
Design System	@zoo/design-tokens + @zoo/ui	Shared monorepo packages
Icons	Lucide React	Tree-shakeable SVG icons
Data Storage	JSON files (filesystem)	`/data/activities.json`, `/data/social-posts.json`
Auth	Password + sessionStorage	Simple token-based
Hosting	Vercel	Automatic deployments on git push
Monorepo	npm workspaces	Part of zoo-crm monorepo

8.3 Deployment

- **Platform:** Vercel (free tier)
- **URL:** https://kidzee-polichalur.vercel.app
- **Trigger:** Automatic on push to `main` branch of zoo-crm repo
- **Environment Variables:** `ADMIN_PASSWORD`, `NEXT_PUBLIC_BASE_URL`
- **Build:** `next build` via Turbopack (~3.5s)

---

9. Data Model & API Reference

9.1 Activity Schema

Field	Type	Required	Example
id	string	Auto	"1711700000000"
title	string	Yes	"Annual Day Celebrations 2024"
description	string	Yes	"A grand celebration with dance..."
date	string (ISO)	Yes	"2024-12-15"
year	number	Auto	2024
category	ActivityCategory	Yes	"annual-day"
images	string[]	Auto	[]
videoUrl	string	No	"https://youtube.com/watch?v=..."
tags	string[]	No	["annual-day", "performance", "dance"]
createdAt	string (ISO)	Auto	"2026-03-29T10:00:00.000Z"
updatedAt	string (ISO)	Auto	"2026-03-29T10:00:00.000Z"

9.2 Social Post Schema

Field	Type	Required	Example
id	string	Auto	"1711700100000"
activityId	string	Yes	"1711700000000"
activityTitle	string	Yes	"Annual Day Celebrations 2024"

caption	string	Auto	"✨ Annual Day Celebrations 2024..."
images	string[]	Yes	[]
platform	"instagram" / "facebook" / "both"	Yes	"both"
status	"queued" / "published" / "failed"	Auto	"queued"
scheduledAt	string (ISO)	No	null
publishedAt	string (ISO)	No	null
createdAt	string (ISO)	Auto	"2026-03-29T10:00:00.000Z"

9.3 API Endpoints

POST `/api/auth`

- **Access:** Public
- **Body:** `{ "password": "string" }`
- **200:** `{ "success": true, "token": "string" }`
- **401:** `{ "error": "Invalid password" }`

GET `/api/activities`

- **Access:** Public
- **Query:** `?year=2024` (optional)
- **200:** `Activity[]` (sorted by date DESC)

POST `/api/activities`

- **Access:** Protected (Bearer token)
- **Body:** `{ title, description, date, category, videoUrl?, tags[] }`
- **201:** Activity object with generated fields
- **401:** Unauthorized

DELETE `/api/activities`

- **Access:** Protected (Bearer token)
- **Query:** `?id=123456`
- **200:** `{ "success": true }`
- **401/404:** Error response

POST `/api/seed`

- **Access:** Public
- **200:** `{ "message": "Seeded successfully", "count": 10 }`

GET `/api/social`

- **Access:** Public
- **Query:** `?activityId=123` (optional)
- **200:** `SocialPost[]`

POST `/api/social`

- **Access:** Public
- **Body:** `{ activityId, activityTitle, description, images[], platform, tags[] }`

- **201:** `{ post: SocialPost, preview: { caption, platform, imageCount } }`

---

10. Accessibility & Compliance

10.1 WCAG 2.1 AA Audit Results

Page	Contrast Issues	Status
Homepage (`/`)	0	PASS
All Activities (`/activities`)	0	PASS
Year Activities (`/activities/2024`)	0	PASS
Admin Login (`/admin/login`)	0	PASS
Admin Dashboard (`/admin`)	0	PASS

10.2 Accessibility Features

Feature	Implementation
Semantic HTML	`<header>`, `<main>`, `<footer>`, `<nav>`, `<h1>-<h6>` hierarchy
Keyboard Navigation	All interactive elements focusable, tab order correct
ARIA Labels	Share buttons, menu toggle, form fields all labeled
Color Contrast	All text meets 4.5:1 minimum (computed via getComputedStyle)
Responsive	Mobile-first, works from 320px to 2560px+
Focus Indicators	Visible focus rings on all interactive elements
Alt Text	All decorative images marked `aria-hidden="true"`, logo has alt text

10.3 Key Contrast Ratios

Element	Foreground	Background	Ratio	Requirement	Status
Body text on cream	#282828	#FFFBF5	13.8:1	4.5:1	PASS
White text on purple hero	#FFFFFF	#65318E	7.5:1	4.5:1	PASS
Secondary text on cream	#6C757D	#FFFBF5	4.8:1	4.5:1	PASS
White on primary button	#FFFFFF	#65318E	7.5:1	4.5:1	PASS
Purple on white CTA	#65318E	#FFFFFF	7.5:1	4.5:1	PASS
Text on lavender	#282828	#EBE1FF	11.2:1	4.5:1	PASS

---

11. Known Limitations

11.1 Current Limitations

#	Limitation	Impact	Workaround
1	**JSON file storage** — data stored in local filesystem, not a database	Data may be lost on Vercel serverless cold starts	Seed endpoint re-populates demo data; production needs Supabase/KV
2	**No image upload** — activities have an `images[]` field but no upload UI	Activity cards show text only, no photos	Manual file upload to `/public/` and reference by path
3	**Social posts are queued, not published** — no Meta API integration yet	Posts marked "queued" but must be manually posted	Copy generated caption and post manually
4	**Simple auth** — password as plaintext token in sessionStorage	Not production-grade security	Acceptable for admin-only access on HTTPS
5	**No edit functionality** — activities can be added and deleted, but not edited	Must delete and re-create to fix typos	Add PATCH endpoint + edit form
6	**No pagination** — all activities loaded at once	Performance degrades with hundreds of activities	Add pagination or infinite scroll
7	**No search** — no text search or category filter on public pages	Users must browse manually or filter by year	Add search bar + category filter
8	**Single admin** — one shared password for all admins	No audit trail of who did what	Add user accounts with roles

11.2 Security Considerations

Area	Current State	Recommendation
Authentication	Password-based, sessionStorage	JWT + httpOnly cookies
API Protection	Bearer token on write endpoints	Add rate limiting
Social API	No auth required	Add Bearer token
HTTPS	Enforced by Vercel	N/A
CORS	Default Next.js settings	Configure if needed
Input Sanitization	Basic required field checks	Add XSS sanitization

---

12. Roadmap — What's Next

Phase 1 — Data & Storage (Priority: High)

Feature	Description	Status

Supabase integration	Replace JSON files with Supabase PostgreSQL	Planned
Image uploads	Upload photos for each activity via admin	Planned
Activity editing	PATCH endpoint + edit form in admin dashboard	Planned
Data backup	Automated backup of activity data	Planned

Phase 2 — User Experience (Priority: Medium)

Feature	Description	Status
Search & filter	Text search + category filter on activities page	Planned
Pagination	Load activities in pages (10 per page)	Planned
Activity detail page	Full-page view with gallery, video embed, comments	Planned
Photo gallery	Grid/carousel view for activity images	Planned
Parent notifications	WhatsApp alerts for new activities	Planned

Phase 3 — Social Media (Priority: Medium)

Feature	Description	Status
Meta API integration	Auto-publish to Instagram/Facebook (not just queue)	Planned
Scheduled posting	Set date/time for auto-publish	Planned
Post analytics	Track engagement on published posts	Planned
Bulk scheduling	Schedule multiple activities at once	Planned

Phase 4 — Platform Expansion (Priority: Low)

Feature	Description	Status
Multi-admin accounts	Individual logins with audit trail	Planned
Parent portal	Login for parents to see their child's activities	Planned
Attendance integration	Track daily attendance via app	Planned
Fee management	Payment tracking and reminders	Planned
Multi-language	Tamil + Hindi support	Planned
PWA	Installable mobile app (offline-capable)	Planned

---

13. Screenshots

All screenshots captured on 29 March 2026 from `localhost:3000`.

#	Screenshot	Page	Description
1		/	Full homepage with hero, stats, activities, year browse
2		/activities	All activities with year selector

3		/activities/2024	Year-filtered view
4		/admin/login	Password gate
5		/admin	Activity management dashboard

6		/admin	Expanded add activity form
7		/activities	Social sharing panel on activity card
8		/ (mobile)	iPhone 14 responsive view

Appendix A — Environment Setup

```
# Clone repository
git clone https://github.com/aldrinstellus/zoo-crm.git
cd zoo-crm

# Install dependencies (all workspaces)
npm install

# Set environment variables
cd apps/kidzee-polichalur
cp .env.example .env.local
# Edit .env.local:
#   ADMIN_PASSWORD=your-password
#   NEXT_PUBLIC_BASE_URL=https://kidzee-polichalur.vercel.app

# Run development server
npm run dev
# → http://localhost:3000

# Seed demo data (first run)
curl -X POST http://localhost:3000/api/seed

# Build for production
npm run build
```

Appendix B — Demo Credentials

Field	Value
Admin URL	https://kidzee-polichalur.vercel.app/admin
Admin Password	Set in Vercel environment variables
Seed Endpoint	POST `/api/seed` (creates 10 demo activities)

This document is periodically updated as features are added. Last updated: 29 March 2026. Prepared by: Aldrin Stellus (aldrin@atc.xyz) — ATC Academy / ZOO CRM Platform
